01. Company Introduction & Business Overview

We are a professional enterprise engaged in the export and distribution of brand-new passenger vehicles. Our mission is to be a pioneer in automotive supply chain services for global brands, delivering efficiency and reliability at every step.

Key Focus Areas

01. Market Coverage— Focused on high-potential regions including Central Asia, the Middle East, and Russia, where demand for quality vehicles continues to surge.

02. Sourcing Network— Leveraging a robust network of certified dealers and direct factory partnerships across China to ensure genuine supply.

03. Full-Service Solution— End-to-end support from procurement to cross-border logistics and final port delivery.

Our logistics capabilities include partnerships with leading Ro-Ro shipping lines, ensuring safe and efficient ocean transport for your vehicles to global destinations.

02. Core Business: Resource Integration

Our Core Strategy

We have identified a significant market inefficiency: the mismatch between limited inventory and the diverse demands of consumers, leading to low conversion rates. For high-value vehicle transactions, establishing absolute seller credibility remains a fundamental and non-negotiable requirement.

Our Solution

By executing strategic industry-wide resource integration, we optimize the supply efficiency and accuracy of vehicle matching. This approach not only resolves structural supply-demand conflicts but also fosters a trusted, win-win ecosystem that empowers both global buyers and sellers.

Mission: Eliminate information asymmetry and build a transparent, efficient global auto trading platform.

Visualizing our global logistics and cross-border shipping capabilities, ensuring a reliable flow of quality vehicles to international markets.

02. Product & Service Advantages

We have built our reputation on five key pillars of excellence:

01.Brand Endorsement & Supply Chain Integration

Establish strong strategic alliances with top brands, ensuring a stable and integrated global supply chain system.

02.Mature Operational System

Standardized and efficient internal workflows minimize risks and ensure the consistent delivery of high-quality services.

03.Rich Project Experience

Successfully completed numerous large-scale and complex projects across diverse industries with proven execution.

04.Stable Overseas Partnerships

Cultivate long-term and reliable cooperative relationships with overseas partners to expand market reach and capabilities.

05.One-stop Service

Integrate comprehensive solutions covering consultation, planning, implementation, and post-delivery support.

“These pillars form the foundation of our reliable and efficient service, creating lasting value for every client.”

Advantage 1: Brand Endorsement & Supply Chain Integration

STRENGTHS

Strong Brand Partnerships

We collaborate closely with leading automotive manufacturers, securing direct access to 100% genuine, factory-authorized vehicles and components for every client.

Efficient Supply Chain

Our fully integrated sourcing network spans certified dealers and factories nationwide. This enables rapid procurement at competitive rates, streamlining the process from order to delivery.

Together, these assets ensure that we deliver solutions that are authentic, efficient, and perfectly tailored to meet your exact business requirements.

Building long-term trust through transparent, mutually beneficial partnerships with global clients and industry leaders.

Advantage 2: Mature Operational System & Project Experience

Our Capabilities

01. International Expertise

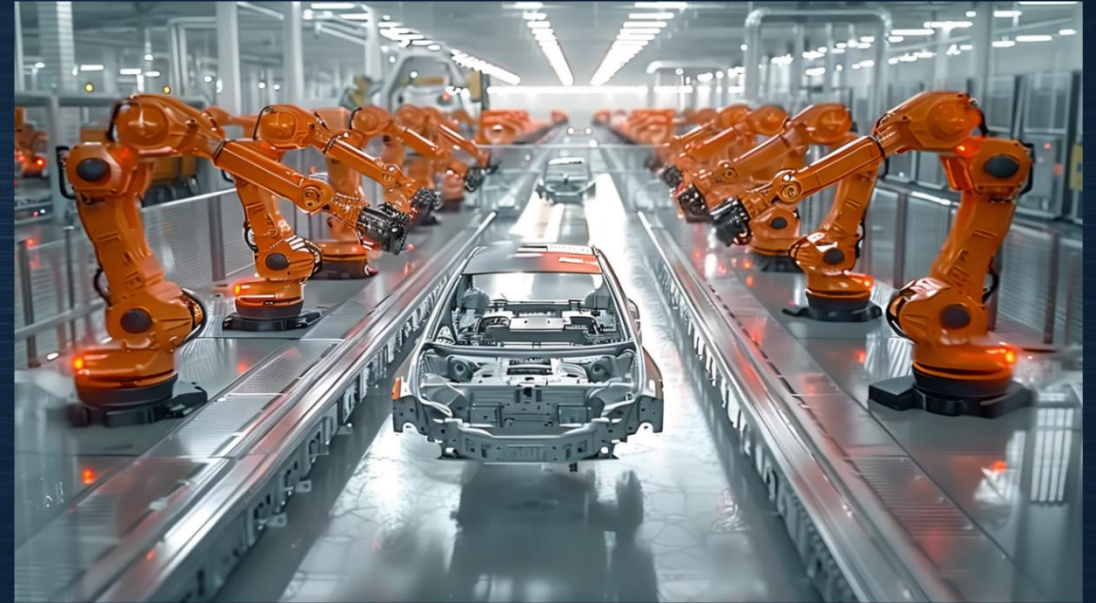

Our standardized operational framework is rooted in globally recognized automotive dealer best practices, ensuring world-class service standards.

02. Experienced Local Team

Our dedicated team brings years of hands-on experience navigating the unique nuances of the Chinese automotive market.

03. Proven Project Success

We have a consistent track record of delivering complex projects on time and to specification, giving our clients total reliability.

Our advanced operational capabilities are exemplified by our commitment to state-of-the-art automotive production and service excellence.

Advantage 3: Stable Partnerships & One-stop Service

01. Highly Engaged Partners

We have cultivated a robust and far-reaching network of overseas business partners who deeply recognize and trust our service quality and operational reliability. This strong foundation ensures that your export business is supported by a team of experienced allies committed to your success.

Long-term cooperation with local distributors and agents minimizes market risks, enabling quick response to customer demands and building sustainable market influence.

02. Integrated Solutions

Experience a truly seamless one-stop service that covers every stage of your export journey. We take charge of full vehicle export coordination, safe cross-border logistics management, and comprehensive customs clearance support, eliminating the hassle of dealing with multiple parties.

Our end-to-end management simplifies complex cross-border procedures, significantly reducing your time and operational costs, and allowing you to focus on your core business.

03. Partner Brands

Comprehensive Range of Brands

Chinese Brands

BYD

Chery

Great Wall

Geely

Lynk & Co

GEELY

MG

Changan

International Brands

Toyota

Honda

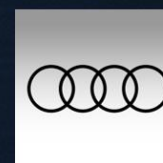

Nissan

Hyundai

VW

Audi

BMW

Mercedes

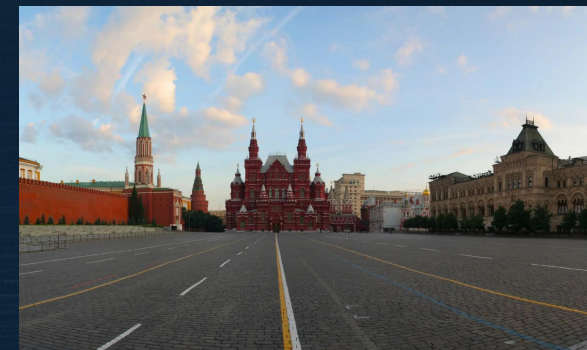

04. Target Markets & Customer Segments

Central Asia

Middle East

Russia

Service Objects

- Overseas car dealers | Trading companies
- Large-scale purchasers

We deeply understand the unique trade regulations, market preferences, and operational requirements of these regions. Our commitment is to craft fully tailored, flexible solutions that empower our diverse clientele to navigate local challenges and seize growth opportunities with confidence.

05. Cooperation Models & Service Process

We offer two primary, flexible overseas business cooperation models tailored to meet the diverse needs of our global clients:

01. Direct Export of New Cars

Ideal for partners seeking standard, factory-fresh vehicles directly from the manufacturers. This streamlined approach ensures you receive authentic, unmodified automobiles with complete factory warranties, delivered efficiently to your market.

Benefits: 100% Original Specs · Full Factory Support · Fast Turnaround

02. Export of Modified New Cars

For clients with unique operational needs or local regulatory requirements. We facilitate professional, manufacturer-compliant customizations before export, ensuring vehicles are fully adapted and ready for immediate use in your region.

Benefits: Bespoke Specifications · Localization Ready · Quality Assured

COMMITMENT: Both cooperation pathways uphold the same principles of complete transparency, operational efficiency, and uncompromising reliability in every transaction.

Model 1: Direct Export of New Cars from Manufacturers

Our Process

01.Brand Cooperation

We establish official, long-term strategic partnerships with leading automotive brands to ensure direct access to their product portfolios.

02.Authorization Acquisition

Secure full export authorization for the complete range of new vehicles, complying with all international trade and manufacturer regulations.

03.Order Processing

Arrange dedicated production runs and direct factory exports tailored to your specific overseas market orders, eliminating middlemen delays.

Result: Factory-fresh, 100% genuine vehicles delivered with maximum efficiency.

Our direct export model leverages state-of-the-art manufacturing facilities like this one, ensuring the highest quality control and shortest lead times for our clients.

Model 2: Export of Modified New Cars

Our Process

01. Contract Signing —Agree on specific modification requirements and formalize the partnership.

02. Vehicle Procurement —Source and secure the exact base vehicle model required for your project.

03. Professional Modification —Customize the vehicle with our expert team to meet precise specifications.

04. Documentation & Logistics —Handle all export permits, certifications, and arrange transport to the destination.

This end-to-end model delivers fully tailored vehicles ready to meet the unique demands of your market.

Our dedicated modification facility ensures that every detail is executed to the highest professional standard.

06. Success Cases & Performance Highlights

Our Proven Track Record

100+

Customer Base

Serving overseas users with stable repeat orders, establishing a solid reputation in the global market.

10+

Industry Cooperation

Built direct partnerships with mainstream automotive OEMs, integrating deeply into industry supply chains.

GLOBAL

Market Validation

Proven execution in Central Asia, Middle East & Russia, validating our adaptability & delivery.

These tangible achievements collectively demonstrate our unwavering reliability and deep expertise in delivering automotive solutions across diverse global markets.

06. Company Vision & Future Outlook

OUR VISION

To strive to become a **pioneer in automotive supply chain services for global automotive brands**, setting new standards of excellence and reliability in the industry.

OUR COMMITMENT

We will continue to deepen resource integration across key regions, optimize end-to-end service processes through smart technology upgrades, and expand our global market network with strategic partnerships. Our mission is to deliver even more efficient, resilient, and customer-centric automotive supply chain solutions that empower businesses worldwide to thrive in an ever-evolving market.
